PROJECT DEMONSTRATION & PITCH VIDEO SUBMISSION

Project Title: TripNest - Comprehensive Tourism, Accommodation, and Vacation Planning DBMS

Group No: 04	**Academic Year: 2026-2027**
Roll No	**Student Name**
AM.SC.U4CSE25050	S Sidharth Unni
AM.SC.U4CSE25009	ADABALA NAGA LAKSHMI
AM.SC.U4CSE25008	ABRAHAM HARISH
AM.SC.U4CSE25069	Chokkapu Gayatri

Demonstration Agenda Highlighted in Video:

• **Voice-First AI Navigation:** Real-time speech parsing via Web Speech API ('Plan my trip to Europe', 'Take me to Switzerland') auto-routing across portal views.
• **6-Stage Trip Planner & Validation:** Stepper workflow traversing destinations, hotels, budget constraints, date selection, and itinerary aggregation.
• **Hospitality Dynamic Billing:** Automated tariff and tax calculation for Swiss Alpine Summit Lodge ($582.40 / $694.40 total).
• **Multi-Channel Checkout & Redirection:** Seamless payment modal with one-click Google Pay (GPay) gateway redirection.
• **Relational Database Verification:** MySQL 8.0 InnoDB engine managing 24 tables in 3NF, automated triggers (price & confirmation), and ACID procedures.

Note: Both the live application and source repository contain complete database DDL scripts, triggers, stored procedures, and the comprehensive 29-page project report document.
